13. Do you have any concerns you would like to share?

More than half of the teachers surveyed had detailed concerns. Here is a list of the most common thoughts of the surveyed OKCPS teachers.

1. The majority of teachers had reservations or were totally against going back to school with students in the building.
2. Teachers wanted to know how the buildings would be cleaned in the future or shared that their facilities were not presently being thoroughly cleaned.

3. Teachers reported that many colleges were not wearing masks, and follow-through for not following the rules was not happening.
4. Many teachers wanted to know why district leaders have decided not to follow the safety plan they created and presented to the board from the beginning of the school year.
5. You shared the entire teaching process has been more time-consuming, and you are more stressed and tired than ever before.
6. Issues with contact tracing were by far the most commented-on subject. You felt this was not being done with fidelity, and many of you were worried about more problems arising when students return.

14. Please rank the PD options from 1 to 5, with 1 being the most beneficial and 5 being the least beneficial to you.
